

Hickory Nut Gap Meats is a pioneering provider of regeneratively raised meats, sourcing from family farms across the southeastern United States. Hickory Nut Gap values and respects the complex relationships between humans and nature, supplying 100% grassfed, grass-finished beef, and pasture raised, heritage breed pork to retailers, restaurants, and caring customers. All Hickory Nut Gap meats are humanely raised and never given antibiotics or added hormones. Visitors are welcome at Hickory Nut Gap Farm, located at 57 Sugar Hollow Road in Fairview, North Carolina, which features a farm store, events, and opportunities to learn more about regenerative agriculture.
